

SHUT DOWN LIQUID LEAKS ON PIPES...TANKERS...RAILROAD TANK CARS QUICKLY, SIMPLY AND SAFELY.

Shut down liquid leaks on pipes...tankers...railroad tank cars quickly, simply and safely with Paratech's easy-to-use inflatable air bag sealing system. Just strap a Paratech chemical resistant* reinforced neoprene air bag over the leak...adjust and tighten the ratchet belts and inflate.

*For specific information regarding chemical resistance of neoprene, refer to Paratech's chemical compatibility guide on our website. www.paratech.com

LEAK SEALING BAGS

Designed for versatility, the 6 x 6 in (15.2 x 15.2 cm) size bag handles many pipe leaks. The versatile 15 x 24 in (38.1 x 61 cm) air bag is used for large pipe casings and common tanker leaks. For large gashes, tears and holes, Paratech recommends the 24 x 24 in (61 x 61 cm) inflatable sealing bag.

- Applies up to 22 psi (1.5 bar) over the damaged area to stem the flow, seal the leak, and reduce contamination...fast
- Works effectively on both smooth and rough surfaces
- Excellent for controlling leaks and punctures, in both stationary and mobile storage tanks
- Special harness design allows the bag to slide into position easily
- 16 ft (4.9 m) air hose and control valve allow emergency crews to work away from hazard zone

EFFECTIVE SOLUTIONS TO HAZMAT PROBLEMS IN 3 EASY STEPS

- 1 Strap a chemical resistant reinforced neoprene bag over the leak
- 2 Adjust and tighten the ratchet belts and inflate
- 3 Apply up to 22 psi / 1.5 bar over the area to stem the flow...seal the leak and reduce contamination...FAST

LEAK SEALING PLUGS

Used by the U.S. Air Force, these tapered hardwood & neoprene plugs are excellent for controlling hazardous material leaks, both liquid and vapor. Neoprene plugs are molded to accept extension handles and can be used with Powered Impact Tools.
